Download

Download Bootstrap to get the compiled CSS and JavaScript, source code, or include it with your favorite package managers like npm, RubyGems, and more.

Compiled CSS and JS

Download ready-to-use compiled code for **Bootstrap v4.0.0** to easily drop into your project, which includes:

- Compiled and minified CSS bundles (see [CSS files comparison](#))
- Compiled and minified JavaScript plugins

This doesn't include documentation, source files, or any optional JavaScript dependencies (jQuery and Popper.js).

COMPILED CSS & JS: HOW TO ADD JQUERY

write less, do more.

[Download](#) [API Documentation](#) [Blog](#) [Plugins](#) [Browser Support](#)

Downloading jQuery

Compressed and uncompressed copies of jQuery files are available. The uncompressed file saves bandwidth and improves performance in production. The compressed file is *not* required for users to run jQuery. The map file is *not* required for users to run jQuery. As of jQuery 1.11.0/2.1.0 the `//# sourceMappingURL` comment is **not included** in the compressed file.

To locally download these files, right-click the link and select "Save as..." from the context menu.

jQuery

For help when upgrading jQuery, please see the [upgrade guide](#) most relevant to your [plugin](#).

[Download the compressed, production jQuery 3.3.1](#)

[Download the uncompressed, development jQuery 3.3.1](#)

[Download the map file for jQuery 3.3.1](#)

also use the slim build, which excludes the [ajax](#) and [effects](#) modules:
